## Drinking Water Quality in Park Place

### 1. Park Place Building Lessor Sampling Results

The lease between the General Services Administration (GSA) and Washington Holdings (Lessor) for EPA's space in the Park Place building requires testing of lead in drinking water. Before EPA occupies each new floor the Lessor will collect samples from drinking water sources including fountains, sinks and plumbed refrigerators. The Lessor's sampling plan and results (arranged by sampling date and floors tested) are below.

- \* [Sampling plan](#)
- \* [April 23, 2014: Floors 1, 2, 16, 17, 20 and 21](#)
- \* [May 6, 2014: Floor 16](#)
- \* [May 6, 2014: Floor 1](#)
- \* [May 14, 2014: Floors, 1, 2, 16 and 21](#)
- \* [May 20, 2014: Floor 1](#)
- \* [May 20, 2014: Floors 1 and 16](#)
- \* [May 30, 2014: Floor 16](#)
- \* [July 25, 2014: Floors 14 and 15](#)
- \* [July 31, 2014: Floors 18 and 19](#)
- \* [August 8, 2014: Floors 10, 14, 15, 18 and 19](#)
- \* [August 15, 2014: Floors 7, 9, 10, 12, 13, 15, 18 and 21](#)
- \* [August 22, 2014: Floor 15](#)

### 2. Park Place Building Region 10 Sampling Results

Sampling of drinking water sources in the Park Place building is being accomplished by the Lessor on each newly remodeled floor prior to occupancy by EPA staff. In addition, the EPA Region 10 health and safety program is embarking on a sampling program to test drinking water sources on floors currently occupied by EPA staff prior to their move to new space.

EPA Health and Safety is developing a sampling plan and sampling strategy for water sampling in occupied EPA space. The sampling is expected to be performed in May 2014 and the results will be ready in June 2014. We will make InfoPage announcements when data is available.
